

ANIMAL CARE

Ashlee Parker – Waimate Vet Services

Ashlee would like to be a vet nurse. While on the Gateway Programme she worked on Level 3 Telford animal care units standards while working for one day every week with the team at Waimate Vet Services. Ashlee left school at the end of 2008 and was accepted by Christchurch Polytechnic to study towards a National Certificate in Animal Care.

Kirby Tarrant

Kirby joined the Gateway Programme in 2006 with the intention of gaining employment in the hospitality industry. Her employer gave her high recommendation but with her passion for animals Kirby began her second work placement in a pet shop – she loved it and was offered part time work during the school holidays.
