

# ENGINEERING

## **Luke King**

While at school in 2008 Luke worked on the Tools4Work Gateway Programme. He worked for Scarlett Engineering for block weeks to complete the practical component of his unit standards; he gained an after school job with Scarletts which was an added bonus! When Luke left school he joined the engineering class at Aoraki Polytech with a realistic idea of what it is like to work in engineering and the commitment required take on an apprenticeship.
