a new gateway
to careers for
young people

G A T E W A Y

a pathway to careers for young people

- ▶ is being made available to senior school students (year 11-13)
- ▶ delivers hands-on practical learning that leads to nationally recognised qualifications
- ▶ builds students' workplace experience, helping them move smoothly from school to work
- ▶ is managed by participating schools through Gateway co-ordinators, who customise the learning and select students to complement the employers' businesses
- ▶ is funded and monitored by the Tertiary Education Commission

Gateway opens a new pathway from school to the world of work. It's a great opportunity to blend school study with workplace learning and experience. Learning is assessed in the workplace, counting towards national qualifications.

Benefits for young people

Gateway helps you build your skills for employment, working in real workplaces on real tasks. It gives opportunities to try out potential careers and build links to Industry Training Organisations, Modern Apprenticeships and workplaces.

Good news for employers

Gateway is a great opportunity to get extra part-time help, strengthen your links to Industry Training, to give something back to your community and maybe to assess potential employees before you hire them.

Gateway schools will equip their students for the workplace and provide learning resources.
